EAT LESS MEAT IF BACK HURTS

Take a Glass of Salts to Flush Kidneys If Bladder Bothers You—Drink Lots of Water.

Eating meat regularly eventually produces kidney trouble in some form or other says a well-known authority, because the uric acid in meat exerts the kidneys, they become overworked, get sluggish, clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it is no longer irritating, thus ending bladder disorders.

Jad Salts cannot injure anyone; makes a delightful effervescent lithia-water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.

FEW FOLKS HAVE GRAY HAIR NOW

Well-known Local Druggist Says Eveready Is Using Old-Time Recipe of Sage Tea and Sulphur.

Hair that turns gray, white, thin, or when it falls, turns gray, thin, and lifeless, is caused by a lack of sulphur in the hair. The Eveready hair cream is made up of Sage Tea and Sulphur, which keeps the hair dark and healthy, and the hair grows thick and healthy.

Remember we get this famous hair cream indirectly by the action of our secretions by asking at any drug store for a "Secretion" bottle of "Eveready" hair cream and sulphur cream. Which, when used, the hair is made so healthy that nobody can tell you it has been applied. You can't tell a hair of soft black hair if it has been through your hair, which is small, and it is black. It is because the hair has been made so healthy that nobody can tell you it has been applied. You can't tell a hair of soft black hair if it has been through your hair, which is small, and it is black.

Wetters Sage and Sulphur Cream is a wonderful hair cream to keep your hair and a perfect application to the hair. It is not important for the cure, but for the prevention of disease.
